

1. Purpose of the Few-Body System Award

The Few-Body Systems Award is created to promote fundamental research on few-body problems in physics and chemistry. It does so by recognizing the research of two young colleagues, a theoretician and an experimentalist, The candidates must have a maximum of 7 years of research experience (excluding career interruptions) following the Ph.D..

The award consists of 1000 euro plus a book published by Springer-Verlag and chosen by the awardees, and a certificate citing the recipient's contributions. It will be granted every three years on the occasion of the European Conference on Few-Body Problems in Physics.

2. Organization

2.1 Selection

The Selection committee is composed of the chair of the European Research Committee on Few Body Problems in Physics (ERCFBP), the chair of the organizing committee of the Conference, the Editor-in-Chief of Few-Body Systems and two additional members selected by the ERCFBP.

2.2 Deadline for nominations

Nominations are due March 1 of the year preceeding the European Few-Body Conference.

2.3 Presentation

The organisers of the Conference will invite the awardees to give a talk and will provide a slot for the ceremony of presenting the award to the two winners. The Editor-in-Chief will present the awards.

3. Promotion

The organizers of the Conference will acknowledge the sponsoring of the award by mentioning Few-Body Systems, published by Springer-Verlag as a sponsor.

4. The Selection Committee 2013:
